Education is the process of facilitating learning, or the acquisition of knowledge, skills, values, beliefs, and habits. Educational methods include storytelling, discussion, teaching, training, and directed research. Education frequently takes place under the guidance of educators, but learners may also educate themselves. Education can take place in formal or informal settings and any ...

My passion is to create math resources that will help equip students with the tools to be successful learners in the classroom and beyond. My goal here at TpT is to help teachers save time in developing resources for their classrooms and focus more on what they do BEST – that is to teach, guide, mentor, and inspire kids.

The goal of classroom questioning is not to determine whether students have learned something (as would be the case in tests, quizzes, and exams), but rather to guide students to help them learn necessary information and material. Questions should be used to teach students rather than to just test students!. Teachers frequently spend a great deal of classroom time testing students through ...
