Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...

Why do nursing students need to learn how to engage in clinical reasoning? "Failure to rescue", defined as mortality of patients who experience a hospital acquired complication, is directly related to the quality of nursing care and nurses' CR skills (Needleman et al., 2001). According to the NSW Health Incident Management System (2008), the top three reasons for adverse patient outcomes ...
