

global 4 with global pdf

Why choose a .global domain?. The world is ever more interconnected and boundaries are constantly dissolving and changing. Whether you are big brand, a small start-up or you wish to bring people together around an idea, no other domain communicates with such clarity your global aspirations.

.Global - Home

Global warming is a long-term rise in the average temperature of the Earth's climate system, an aspect of climate change shown by temperature measurements and by multiple effects of the warming. The term commonly refers to the mainly human-caused observed warming since pre-industrial times and its projected continuation, though there were also much earlier periods of global warming.
