Ham Radio Deluxe is a CAT control program created by Simon Brown (HB9DRV) and Peter Halpin (PH1PH). It is a suite of four integrated programs available for free ...

Ham Radio Deluxe - Main Page

Amateur radio, also known as ham radio, describes the use of radio frequency spectrum for purposes of non-commercial exchange of messages, wireless experimentation, self-training, private recreation, radiosport, contesting, and emergency communication. The term "amateur" is used to specify "a duly authorised person interested in radioelectric practice with a purely personal aim and without ...

Finally, even though you're properly licensed, it doesn't mean you really know what you're doing yet, and that's ok. One thing many brand new hams find useful is to attend a ham radio course after getting their licenses. That might seem a bit backwards, but it's a very effective way to learn the ins and outs of ham radio, including some hands-on fun, without the pressure of an examination ...

An amateur radio repeater is an electronic device that receives a weak or low-level amateur radio signal and retransmits it at a higher level or higher power, so that the signal can cover longer distances without degradation. Many repeaters are located on hilltops or on tall buildings as the higher location increases their coverage area, sometimes referred to as the radio horizon, or "footprint".

1. INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...
