Retail Food Protection: Employee Health and Personal

A nutritionist is a person who advises others on matters of food and nutrition and their impacts on human health. Some people specialize in particular areas, such as sports nutrition. In many countries, a person claiming to be a nutritionist is not required to have any training, education, or any type of professional license. This differs from becoming a dietitian, which normally requires ...

RPAH Elimination Diet Handbook - Emerge Australia

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. It includes food intake, absorption, assimilation, biosynthesis, catabolism, and excretion. The diet of an organism is what it eats, which is largely determined by the availability and palatability of foods.
