The Hearing Voices Movement (HVM) is the name used by organizations and individuals advocating the "hearing voices approach", an alternative way of understanding the experience of those people who "hear voices". In the medical professional literature, "voices" are most often referred to as auditory hallucinations or "verbal" hallucinations. The movement uses the term "voices ...

Hearing Voices Movement - Wikipedia

How can noise damage our hearing? To understand how loud noises can damage our hearing, we have to understand how we hear. Hearing depends on a series of events that change sound waves in the air into electrical signals.
