METEOROLOGY LESSONS WITH CALCULATORS, APPLETS, ANIMATIONS & SIMULATIONS Weather & Climate Lessons with Calculators & Applets WEATHER WISE: WEATHER EDUCATION APPLETS & HTML5 - S. Ackerman & T. Whittaker, Cooperative Institute for Meteorological Satellite Studies, Space Science & Engineering Center, University of Wisconsin Multimedia Weather Lessons (Text, Images, Animations, Simulations & Applets).

Martindale's Calculators On-Line Center: Weather

The atmosphere is a fluid. As such, the idea of numerical weather prediction is to sample the state of the fluid at a given time and use the equations of fluid dynamics and thermodynamics to estimate the state of the fluid at some time in the future. The process of entering observation data into the model to generate initial conditions is called initialization.

Numerical weather prediction - Wikipedia

Meteorology is a branch of the atmospheric sciences which includes atmospheric chemistry and atmospheric physics, with a major focus on weather forecasting. The study of meteorology dates back millennia, though significant progress in meteorology did not occur until the 18th century. The 19th century saw modest progress in the field after weather observation networks were formed across broad ...

Issues What is forecast verification? If we take the term forecast to mean a prediction of the future state (of the weather, stock market prices, or whatever), then forecast verification is the process of assessing the quality of a forecast.. The forecast is compared, or verified, against a corresponding observation of what actually occurred, or some good estimate of the true outcome.

WWRP/WGNE Joint Working Group on Forecast Verification

NASA, NOAA Convene GOES-17 Mishap Investigation Board. October 2, 2018. NASA and the National Oceanic and Atmospheric Administration (NOAA) have appointed a board to investigate an instrument anomaly aboard the Geostationary Operational Environmental Satellite (GOES) 17 weather satellite currently in orbit.

GOES-R Series | NOAA National Environmental Satellite

Table 2: Thruster module configuration and function. Each thruster is designed to deliver a nominal thrust of 22.7 N at the beginning of life. Currently (2015), each thruster on MetOp-B is providing on average 17.5 N of thrust.
