The history of photography began in remote antiquity with the discovery of two critical principles; camera obscura image projection and the observation that some substances are visibly altered by exposure to light. Apart from a possibly photographic but unrecognised process used on the Turin Shroud there are no artefacts or descriptions that indicate any attempt to capture images with light ...

Author's Comment. This is a personal site in that it provides the publications on the history of photography of only one person. However it is appropriate here to at least add the personal reason why this site is named as Midley.

### **Midley History of early Photography:**

Photography is the art, application and practice of creating durable images by recording light or other electromagnetic radiation, either electronically by means of an image sensor, or chemically by means of a light-sensitive material such as photographic film. It is employed in many fields of science, manufacturing (e.g., photolithography), and business, as well as its more direct uses for art ...
