The International Space Station (ISS) is a space station, or a habitable artificial satellite, in low Earth orbit. Its first component launched into orbit in 1998, with the first long-term residents arriving in November 2000. It has been inhabited continuously since that date. The last pressurised module was fitted in 2011, and an experimental inflatable space habitat was added in 2016.

The recent death of Mozambican taxi driver Mido Macia at the hands of police officials has once again turned the worldâ€™s attention to police brutality in South Africa. This incident only became a major media sensation because of video footage of Macia being dragged behind a police vehicle to the police station, where he was allegedly beaten to death.
