System of systems is a collection of task-oriented or dedicated systems that pool their resources and capabilities together to create a new, more complex system which offers more functionality and performance than simply the sum of the constituent systems. Currently, systems of systems is a critical research discipline for which frames of reference, thought processes, quantitative analysis ...

Last Updated: Survey of Architecture Frameworks. The specification of architecture frameworks is one area of standardization in ISO/IEC/IEEE 42010:2011 (the international revision of IEEE 1471:2000).. WG42 is collecting examples of architecture frameworks, listed below. Items in grey are entries in progress and should not be considered definitive at this time.
